

Measuring Area

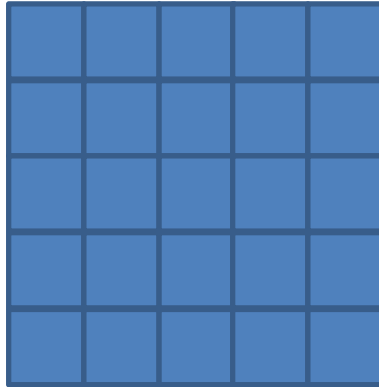

Elaborate – Answer Key

Solve each problem.

1. Use 12 color tiles. Create as many different rectangles as you can with the 12 tiles. Draw each one and label the side lengths.

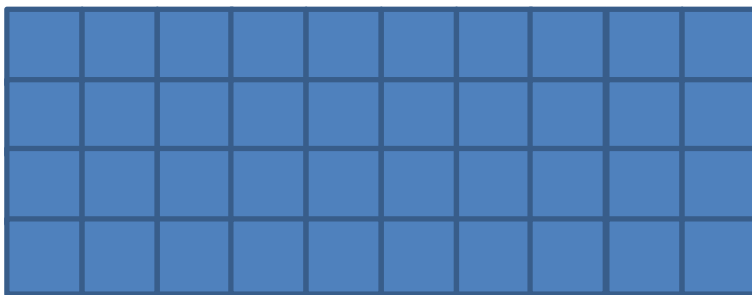

2. Jacob is tiling a hallway. The hall is 5 units long and 5 units wide. Use color tiles to build a model of the floor. What is the area?

Area: 25 square units

3. Sylvia's dog needs a play area in the back yard. Sylvia's dad marked off an area that was 10 units long by 4 units wide. Draw and find the area.

Area: 40 square units
