

# Middle School Mathematics (Grades 6, 7, 8) for IMRA 2024

For the Texas State Board of Education (SBOE)'s Instructional Materials Review and Approval (IMRA) process for 2024, we combined resources from *Focused Math*, *TEKS Companion Guides*, and *Performing Math* into a full curriculum for Grades 6, 7, and 8 Mathematics. In combination of print and digital media, there are several program options available for consideration.

In compliance with IMRA 2024 guidelines, all programs include digital access to all materials. Some programs include print versions of the *TEKS Companion Guide* for that grade level.
